I want this website to be able   Generate order tracking auto generate orderID, with email notification and Text messages .

On website

Vendor panel / admin Dashboard
1. Comprehensive dashboard
2. Automated dispatch
3. Real time tracking
4. Add/ manage vendors
5. Payment management
6. Refund or cancel order

Customer Access

1. Log In / sign up
2. View menus and categories
3. Set up pick up and drop off location
4. Add to cart
5. Payment options
6. Check order history
